11.30 – 12.00 Changes in Cardiocerebropulmonary Resuscitation in Obstetrics – **C Pizarro**

12.00 – 12.30 The fetus as a patient in the critical patient – **M. Rebolledo**

12.30 – 13.00 Undifferentiated shock in obstetrics: strategies at the patient's bedside for diagnosis and resuscitation: RUSH/VTi – **L. Correa**

13.00 – 13.30 Pulmonary Embolism: basic and advanced management through cases and global guidelines. – **L. Correa**

## Day II – Maternal Fetal Medicine

### Friday, 22 March 2024

#### Maternal Fetal Medicine – Prenatal Diagnosis

- 08:00 -08:30 Diabetes in obstetrics the fetal impact – **M. Rebolledo**  
08:30 – 09:00 Early diagnosis of congenital Anomalies – **E. Bornstein**  
09:00 – 09:30 – Which structures are present at 11 – 13 weeks? What do you need to know for a dedicated first trimester brain scan – **R. Birnbaum**  
09:30 – 10:00 The fetal Ventriculomegaly : A master Approach- **M. Herrera**  
10:00 – 10:30 The Fetal posterior fossa: how to evaluate and approach to the abnormalities. - **F. D'Antonio**  
10:30 – 11:00 The early second trimester brain – from normal development to high resolution neurosonography – **R. Birnbaum**

11:00 – 11:30 Coffee

#### Maternal Fetal Medicine – From the prenatal diagnosis to the fetal therapy

- 11.30 – 12:00 The fetus with Congenital diaphragmatic hernia – **M. Singh**  
12.00 – 12.30 The Learning Curve in Fetal Therapy and Surgery – **M. Herrera**  
12.30 – 13.00 The validated fetal therapy – **M. Singh**

13.00 – 14.00 Lunch

#### Maternal Fetal Medicine -The Fetal Brain

- 14.00 – 14.30 The fetal brain: Be aware of the ganglionic eminence: How to do it - **R. Birnbaum**  
14.30 – 15.00 The CMV Infection State of the art – **W. Krzeszowsky**  
15.00 – 15.30 The pericallosal lipoma – how to approach and this challenging diagnosis – **R. Birnbaum**  
15.30 – 16.00 The fetal infection: Toxoplasma, PVB19 – **F. D'Antonio**

16.00 – 16.30 Coffee

#### Maternal Fetal Medicine - From the prenatal diagnosis to the fetal therapy

- 16.30 – 17.00 The multiple pregnancy state of the art– **F. D'Antonio**  
17.00 – 17.30 The fetal therapy in twins and fetal neurology: Cases – **M. Herrera**

## Day III – Maternal Fetal Medicine

### Saturday, 23 March 2024

#### Maternal Fetal Medicine – The Fundamentals and Update

08:00 -08:30 The Preeclampsia Update – **K. Nicolaides**

08:30 – 09:00 The preterm delivery update – **K. Nicolaides**

09:00 – 09:30 The Fetal Brain: The Corpus Callosum – State of the art - **G. Malinge**

09.30 – 10.00 The fetal brain: Abnormal cortical development: early and late diagnosis –  
**G. Malinge**

10.00 – 10.30 Ultrasound on labor and delivery - **H. Feltovich**

**10.30 – 11.00** Cervix evaluation – Just cases and decisions – **H. Feltovich**

**11.00 – 11.30** Coffee

#### Maternal Fetal Medicine – Fetal Medicine

11.30 – 12.00 Borderline Findings (Cysts, placentas) – **H. Feltovich**

12.00 – 12.30 The placenta accreta spectrum: Diagnosis and Management – **F. D’Antonio**

12.30 – 13.00 The surgery approach to the PAS – **J. Luna**

13.00 – 13.30 The CSP: Master approach to the diagnosis and treatment – **E. Bornstein**

13.30 – 14.00 T The fetus with LUTO – **J. Soto**

**Closing Ceremony**
